

MXT Series

Surface, wall or end mounted fluorescent exit light fixture

Designed and constructed from marine grade aluminum with a lexan lens for commercial marine dripproof applications, the MXT is supplied with two compact fluorescent 7 watt lamps. A 90 minute emergency battery backup is available.

- Housing** Marine grade aluminum with four flush head stainless door retaining screws. Universal enclosure mounting design with individual full length canopies for end and ceiling mounts.
- Lens** 1/4" Lexan lens. Drop in EXIT stencil face with pop-out directional arrows.
- Lamps** Supplied with two compact fluorescent 7 watt lamps.
- Finish** White powder coat polyester inside and out, phosphate pretreated to ensure superior adhesion.
- Emergency option** 90 minute emergency powered units include a nickel cadmium battery, two miniature wedge base lamps, a solid state charger, power indicator lights and test switch.
