

Instructions for: STP Fixtures

IMPORTANT!

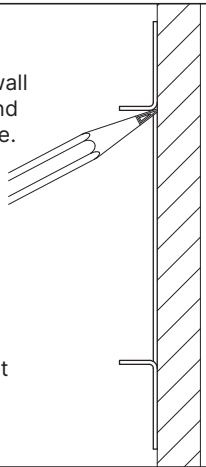

When using electrical equipment, basic safety precautions must be followed:

Service must be performed by qualified service personnel.

Do not use product for other than intended use.

Do not install this product near gas or electric heaters.

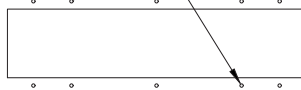

1. Hold mounting frame flat against the wall. Using the wall as a template, mark holes and outline inner rectangular hole.

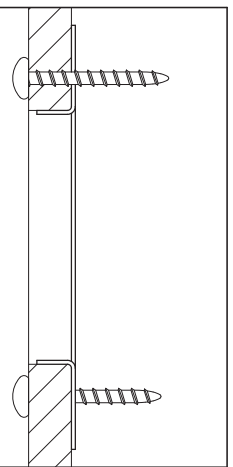

2. Remove mounting frame. Drill 8, 1/8" dia. holes and cut out rectangular hole.

3. Start 2 pan head sheetmetal screws (included) into wall using the two drilled frame mounting holes.

FRAME MOUNTING HOLES (2)

4. Maneuver mounting frame into wall. Hold frame against wall while threading screws until snug.

5. Remove two fixture cover screws.
6. Remove cover.
7. Remove reflector retaining screw.
8. Rotate and remove reflector.
9. Attach flexible conduit and splice wire leads.
10. Maneuver fixture housing into wall opening.
11. Mount fixture housing through 6 flange holes to wall using the 6 pan head screws provided.
12. Reassemble reflector.
13. Attach cover.
